*Business is Business: Emery C. Martin, A Solo Show*

**November 29<sup>th</sup> - December 7<sup>th</sup>, 2008**

**Reception: Saturday, November 29<sup>th</sup>, 8 – 11 PM**

Since computer games are a socializing force both directly and indirectly “Business is Business” begins to deconstruct and forefront the ideology presented by the game, “Command & Conquer: Generals” (2003), in relation to another often seemingly benign socializing mechanism, the language learning course. The result is a language learning course that begins to reveal clashes between these two socializing devices, their similarities, deficiencies, and the lack of access to a broader understanding of the Middle East within the American everyday.
