The weather started getting rough, the tiny ship was tossed...from *eleven* stranded castaways (there were a few more they never told you about, and Lara Bank (Director/Founder of Sea and Space) is doubling as both the skipper and Gilligan, split personality)...for a three-hour tour, a three-hour tour...so join us here **March 6th** my friends, you're sure to get a smile from *eleven* stranded castaways...

Three-hours at the Torrance Art Museum showcasing a few passengers from SEA AND SPACE who just happened to be aboard during this fateful night in early March.

ABOUT SEA AND SPACE EXPLORATIONS

Founded in 2007 as a non-profit artist run gallery, Sea and Space is a highly collaborative venue dedicated to presenting challenging contemporary art practices largely unsupported by commercial spaces. The space hosts exhibitions, lectures, workshops, performances, and happenings. Sea and Space Explorations is a portal to a place where notions of good and bad, market constraints, and fixations with progress are understood to be peripheral, where artists take risks without fear. This space hosts artists whose practices resonate with the conceptual, theoretical, relational, and political.
